

BECAUSE SOLIDS MANagements SHOULD BE AN OPPORTUNITY, NOT A COSTLY CHALLENGE.

MAIN FEATURES

- Project manager and collaborative work.
- Easy data loading/input for fluids, well configuration, facilities and operational parameters.
- Configurable Dashboard for technical and operations monitoring. Historical and real time analysis.
- Key performance indicators (KPIs) – Dashboard.
- Automated report for control, decision-making and regulatory compliance (RRC H-10 / EPA form).
- Technical support about the software and technology as a whole.

SPECIFICALLY DESIGNED FOR

- Waste managers.
- Oil & Gas producer/operators.
- Oil Refineries.
- Mining industry.
- Industrial waste management.
